STUDENT PROFILES OF SERVICE

Student Profiles of Service is an award sponsored by the Division of Student Affairs and the Center for Leadership and Civic Education recognizing individual students who demonstrate exemplary commitment to community service at local, national, or international levels.

Service to the community demonstrates personal and civic responsibility as well as commitment to broadening learning experiences beyond the classroom. It also gives students the opportunity to acquire new skills and grow in empathy and respect for others. Students will not be judged solely on academic achievement, general leadership contributions, or sheer quantity of service activities.

Applicants will be chosen based on the following:

- Exemplary service on local, national, or international levels.
- Sustained quality and commitment to service.
- Personal learning and skills derived from service.
- Future plans/goals influenced by service.

Format for submissions:

- Complete all information on application form. Applications cannot be accepted if there is missing information.
- All responses should be typed in 12-point font and attached to application form.
- Limit short essays to 300 words or less.

All students honored in Student Profiles of Service will have their photo and biography published in the *FSView* as well as on Blackboard.
